BUSINESS WAS

FAIRLY COOD.

Record Made on the Salt Lake Exchange Today.

BUSY DAY AT THE SAMPLERS

Free Gold Discovery on Pocatello Creek-The Mines of Little Cottonwood-Mining Notes.

'A fair amount of business was done on the board today, the brokers pagging away until they had sold on the regular call 4,200 shares for \$1,704.87,and on the open board 2,550 shares for \$3,-115.25. Interest centered principally in the smaller stocks, such securities as Carisa, Uncle Sam, May Day and Ben Butler being dealt in at the old figures, while small blocks of the bigger fellows found ready takers on a firm basis, Daly-West going at \$48, Daly at \$2.05 and

Con Mercur at \$1.99. "The condition of the market," said a prominent broker today, "is far from what it was a year ago. Then Ajax was above a dollar, Con. Mercur between three and four, and other stocks proportionately high. Today some of these same securities sell for a mere nothing, and where some of them are going to get off at, remains a pro-found mystery to me. The market is and other mines, the whole bringing the found mystery to me. The market is not changing much, however, and if she can only maintain herself till fall, then to be heard in a mining way. the probabilities are holders will come out all right."

PLENTY OF FREE GOLD. Mike Condon Makes a Rich Discovery on Pocatello Creek.

Special Correspondence. Pocatello, Ida., June 27.-Pocatello has another sensation. This time it is gold, free gold, and lots of it, \$2 to the pound, and from \$500 to \$4,000 a ton. Mike Condon is the lucky man, andhe is now showing honey-combed quartz

rock carrying golden flakes as large as a sixteenth of an inch. Mike Condon is an old timer and was the agency blacksmith in days of yore the agency blacksmith in days of yorchefore Pocatello was built up. An old prospector informed him of it 20 years or more ago. After the mad race for choice lands on the 14th inst. Mike quietly placed his stakes, and no one was any the wiser till yesterday. The ten days' limitation of two claims to each very experted on the each each prospector expired on the every of the 24th, the day after the foul trag edy, and if Mike has not more than to claims now it is certainly not his fau

The property has been named Th Irish Girl, and Mike has taken as partner Charles Sterritt of Soda Springs. Today they go out to work it in earnest. J. M. Ingersoll, Pocatello's only millionaire, was out there yester-day and located a couple of claims. He has applied every known test to the ore and finds it is the real thing, surface rock showing free milling gold and jots

The mine is located just this side of the fated north fork of Pocatello creek, itself a tiny stream. Where the ledge is, two deep draws form on each side causing the bluff to resemble the gable end of a house and right there Mike Condon planted his stake. That it has been overlooked till now is simply one of those perplexing problems that are yet to be explained, and that there has a stampede for Pocatello creek goes without saving.

THE SAMPLEES BUSY.

Many Camps.

The samplers had before them a good amount of business today, the Taylor-Brunton itself reporting no less than 36 cars. This lot came from numerous sources, the Ophir Hill of Ophir contributing 25 cars, the Ben Butler of Bingham two of crude and four of concentrates, the Phoenix, Sampson and Linted Rights at the sampson and centrates, the Phoenix, Sampson and United Bingham of the same camp one car each, the Excelsior of Eureka, Nevada, one, the Carisa of Tintic two, and the Carisa-Dawson lease one. The Conklin people reported shipments of Lower Mammoth and Adax of Tintic, and one car of what is understood to be high grade silver-lead ore from the Utah mine, located at Fish Springs. All the shipments for some time to came. This is a good showing and speaks well for the productiveness of Utah's camps.

WILL GRIFFITHS'S FALL. Has an Accident in Little Cottonwood - The Mines There.

With a badly discolored optic and a pate that gives evidence of recent repairs, Will Griffiths, the well known mining man, came in from Cottonwood today with a story of a remarkable es-Sunday for the purpose of instituting work on the Ravine, but his plans wer brought to a half by an accident whic occurred as he was descending the down by the rope route, but no soone had his portly fram, drawn it taut that the "stling bloke," and the gentleman was precipitated to the bottom, a distance of 28 or 30 feet. The result was as stated above, a black eye and a severe scalp wound which it required several stitches to set right.

Mr. Griffiths says there is considerble work being done in that part, the mines near Alta being bushy digging and shipping ore. The Albior he says, is putting in a compressor and doing well, while shipments are being made from the Grizzly, Montezuma, the ottonwoods to the front and indicating that from that section there is yet much

Riches of Rabbit Creek.

Some of the best looking copper and lead are we have ever seen was brought in last night from the claims located by Nat Eldredge. Dave Daniels and the Munn brothers, eight miles east of the city on the headwaters of Rabbit creek and can be seen in the Eldredge's window on East Center street. The ore shows rich in copper and through it is a streak of almost solid lead. This streak will run from 60 to 75 per cent the surface only about four feet of work having been done. They report a 5-foot ledge which shows better and better with every foot of depth. The property is located near the reservation boundary.-Pocatello Tribune.

Montana's Mineral Showing.

Helena, Mont., June 28 .- The report of S. B. H. Tatem, assayes in charge of the United States assay office at Helena, to the director of the mint for the value of the gold, silver, copper and lead produced in Montana that year was \$60.387,619.01. Of that amount \$4.562.717.59 was in gold, \$18.334.442.26 sliver, \$36,751.837.34 in copper, and \$498. 422.02 in lead. As compared with the preduction of 1890, the decrease is about \$3,000,000, due to the lessened pro-duction of corner. The report shows duction of corner. The report shows that Three the discovery of gold in Montana 40 years ago, more than \$1.-000,000,000 has been taken from the streams and mountains of the state.

Ontline of Mining Law.

The "News" has received with compliments of A .R. Derge & Co., Salt Lake City, a copy of a neat and com-prehensive little work entitled "Outline of Mining Law for Miners," the same being a concise statement of law upon being a concise statement of law upon questions of most interest to miners, together with directions for locating mineral ground. The work is from the pen of Charles B. Jack, a member of the Utah bar, and from its very nature should be of great value to mining men in general, but varifullarly to those to in general, but varticularly to those to whom it is addressed—the rugged min-er. It may be had for 50 cents,

MINING NOTES.

The Utah mine will pay its \$2,000 divdend tomorrow. Reports have it that Tonopah is about to be equipped with a \$65,000 custom plant.

The Park Record says the next regular dividend of the Daly-West will be

The Dewey mill at Bingham is now running on ore from the Phoenix and Coramandel.

Ore showing values of from \$60 to \$80 per ton in gold, has been discovered near Danielsville.

Holders of Ophir of Stateline have been notified that the property has been mortgaged for \$100,000. The fifth annual meeting of the Inter-

national Mining Congress will be held in Butte, Sept. 1 to 5 inclusive.

According to the Bingham Bulletin, a 509-ton lot of Col. Wall's Neptune-Kempton ore is to be rut through the Dewey as soon as it can be delivered Muttons, 4.75@4.30; lambs, 4.65@6.45; upge wethers, 3.60@4.70; ewes, 4.25@ The reported strike in the Manhattan

The reported strike in the Manhattan a verified by the Pioche Record which ays that the ore runs as high as 2,000 nunces eliver, and \$12 in gold to the con, he vein being four feet wide and lying between perphyry and quartzite Henry Green was in from Tintle to-day. He says the R. G. W. in following he lissure north, has developed a high-v mineralized formation, the same givs every indication of a near approach

Heavy Shipments of Ore from Utah's MARKET'S TONE

WAS CONFUSED.

Southwestern Railroad Stocks Were Notably Firm.

THE WESTERNS SOLD OFF.

Heavy Demand for Illinois Raised it Materialis - A Loss of 1% in Amalgamated Started Rentizing.

New York, June 30.-The opening stock market was quite active but the one was confsed. The southwestern railroad stocks were notably firm, Missouri Pacific rising to 111 and Texas and Pacific gaining a point. Western stocks sold off, led by St. Paul, and profit taking depressed Himois Central below 160. Some of the coalers were in demand, particularly Pennsylvania which advanced a point but the group moved narrowly. Near 11 o'clock a heavy demand for Illinois Central advanced it almost a point over Saturday's close and the general market showed some improvement. Prices quite generally | til about July 7 or 8. rose above Saturday's close.

Southern railway common was bought in large blocks and Louisville touched 138. Colorado Fuel made an upward sprt of 216.

Bonds were firm. A loss of 11/4 in Amalgamated started market was dull and heavy, the acdepressing influence. St. Paul lost 14 and the reaction reached a point or more, in Chicago, Indianapolis & Louisville and the United States Steel pre-

THE SESSION

Adjournment May Not Come Until July 8.

HOW TIME HAS BEEN LOST.

Rushing Census Work With Reduced Force - Another Defeat for Washington Memorial Bridge Scheme.

Special Correspondence.

Washington, June 26 .- When there was no longer any prospect of bringing forward the Cuban reciprocity bill in the senate, the atmosphere cleared and the way was open to an adjournment of the present session. The end might have been July 1, but the house managers had generously given twice as much time as was actually necessary for the consideration of the Philippine government bill, and three days were ost. That bill must be considered in conference before it can become a law. which will be likely to make the adjurnment close to the national holiday. It may be the 3rd of July or it may run over to the 8th. Nearly ev-

ery one seems, anxious to get away

early and before Independence day if

possible, but there are shrewd leaders

who seem to think that complications will arise to postpone adjournment un-CROWDING CENSUS WORK.

The month of June has witnessed busy times in the census office. Director Merriam has had to reduce the force to a permanent basis and at the same time close up the work of cercalizing in the railroad list and the tain reports by the end of the fiscal year. He has had to dispense with many clerks, while those retained have had to work overtime to finish the work. The director has been very successful and will have much of the work published five years in advance of the usual time. The splendid organization of the bureau has made it possible for him to accomplish these

> results. KEEP ON FIGHTING.

Every session of Congress in the city of Washington makes a fight for a memorial bridge to connect the city with Arlington national cemetery. Every year it is defeated by members of the house who do not believe that the government should construct a bridge, memorial or otherwise, costing about \$3,000,000, which will be largely in the interest of property owners on both sides of the Potomac. Virginia joins those interested in Washington in advocacy of the bridge, but cannot rally enough support to pass the measure even after it is attached to an appropriation bill. Though defeated this year, its friends promise to come forward again next season.

PACIFICATION FROM AKRON. When there is trouble among Ohio Republicans and something in the way of harmony is necessary, Gen. Dick the representative of the Akron district, is called upon to settle the trouble and bring about harmony. He is the kind of politician who can see how to adjust differences, and advice from him is received by both factions in a contest and often acted upon. There is another side to Dick's character he falls to secure harmony and there must be a fight to the fluish he is right in the thick of it until victory is cured. And Dick is generally on the ctorious side of almost every contest which he takes part. Some people assert that in time instead of "Representative" Dick or "Gen." Dick it will be "Gov." Dick.

WILL FIGHT A COMMISSION. Five members of the committee or thor see in the proposed commission ingire into the condition of the blored people of the country another form of the Crumpacker resolution.
They have made quite an extensive report against the bill and say that such commissions are unnecessary and hat they believe that the commission would spend more of its time at makdesired than it would in considering particular subjects intended under the bill. They also say that such inquiries would not be of advantage to the great mass of negroes and would nesult in a blow to the industrial development of the south. Anything pointing to a revival of the race question stirs up animosity and antagon-ism and tends to retard business. In

closing the report they say:
"We baleve that the logical and inevitable effect of the passage of this bill will be to weaken the powers of the several states and will lead to an unwarranted interference in their affairs by the federal government."

RECOLLECTIONS OF CHANDLER. I heard a group of senators talking about Zach Chandler, who was for many years a senator from Michigan, Senator Burrows said that Chandler was highly appreciated in his state. Senutor McComus said that his first interview with Zach Chandler after his first campaign as a candidate for Congress. He was about 25 years old, and made the race in Maryland and was beaten by eight votes. Chandand was seaten by eight votes. Chand-ler was managing the Republican na-tional campaign, and sent for McComas and insisted without any qualification that McComas should contest the seat. McComas thought that he was elected by about 400 majority, but had been counted out, and Chandler, his face mmovable as a plaster cast, said over and over again, "You must contest that seat," and would accept no argument made by McComas. "But I didn't contest it," said McComas. "It was a Democratic house and I was not going to waste my time."

WOOL. ST. LOUIS.

BOSTON. "The Rocky Mountain Limited" via Rock Island Route makes it possible. Leaves Denver 1 p. m. and Colorado Springs 1:20 p. m. daily. Dining cars for all meals. Midday Luncheon, 50 STREET FIGHTING AT CAPE HAYTIEN CEASES.

Cape Haytica, June 30.—The street fighting here yesterday between the minister of Hayti at Paris, and Gen. Alexis Nord, the minister of war of the provisional government, both of whom are candidates for the presidency of the republic, ceased at 7 o'clock yesterday evening, Admiral Killick, who had sup-ported M. Firmin by landing marines and firing on Gen. Nord's followers yesterday, ordered the marines to return to their ship, which they did. They were accompanied on board by the partisans of M. Firmin. The admiral who only used his small rapid-firing guns yesterday, threatens to bombard Cape Haytien in earnest. [Attle damage was done by the bombardment of yester-day, M. Firmin's residence and the houses of his relatives have been com-

pletely pillaged.

The Haytien warship Crete-a-Pierrot, on which bithe foreign consuls, under the protection of their respective flage. and M. Firmin sought refuge yesterday is still in the roadsted. She is seeking to obtain a supply of coal, so as to en-able her to go to Port au Prince. Peace seems to have been re-estab-

Damage Wrought by Windstorm. S. Louis. June 30,-A low estimate placed on the damage wrought within radius of 150 miles of Alton, Ills., by the storm of wind and rain Saturday night and Sunday is \$1,000,000. In the American bottom farming district the

farmers are ruined. farmers are ruined.
Wood river, a small and usually
harmless stream, overflowed its banks
early Sunday morning and the farmers
in the vast expanse of bottom lands were forced to get into the upper stor es of their homes to save their lives. Their houses were flooded. After spending a night full of peril they watched the daylight come in only t see their crops had been washed away. The Reuter farm, near the banks of the Wood river, three miles from Alt n was damaged to the extent of \$10,000 and when the waters subside the los may be twice that amount. This nly one instance. Railroad traffic through the bottom

lands is completely shut off, and will not be re-established before evening as the washouts are such that they cannot be easily or rapidly repaired. At East Alton the Western Cartridge ompany was flooded with a loss of

Reports received this morning from the Piasa creek district say that the farmers in their anxiety to get stock to save any of their shocked wheat, and lost all. All the crops there are

Mangled by a Passenger Train. Cleveland, O., June 10 .- The mangled remains of two men were found early today at the Hoyt Street crossing of the Lake Shore road. One of the bodies was identified as that of James Swaffield, the watchman at the crossing. It is supposed that he attempted to resing train which struck and killed both
